## BADGES OF NEW DESIGN FOR DISTRICT POLICEMEN

Shields Issued to 686 Sergeants and Privates Bear Larger, Raised Numerals.

Members of the metropolitan police department, under captains and lieutenants, today "sporting" new badges. Six hundred and forty privates and sergeants were given the new badges today. The captains and lieutenants all have gold badges, and therefore no change was made.

The new shields were issued by Maj. Pullman, and the principal change in the shield is the use of a background under the steel of the Capitol as a numeral plate.

### Numerals Are Larger.

The numerals on the new shields are so large that they can be read at quite a distance away. The new shield is quite similar to the old one, except that the number plate has been enlarged from a quarter inch high to nearly an inch, and is raised instead of being engraved. On the face of the shield, under "Metropolitan Police," are the letters "D. C." which were not on the old shields.

### WEATHER.

Partly Cloudy and Cooler Tonight. Tomorrow Fair and Cool.

For the District of Columbia, partly cloudy and cooler tonight. Tomorrow fair and continued cool; gentle north-easterly to north winds.

For Maryland, fair and slightly cooler tonight. Tomorrow fair, continued cool; moderate north to northeast winds.

For Virginia, fair in north, showers this afternoon or tonight in south portion. Tomorrow fair; moderate northeast winds.

For West Virginia, fair and somewhat cooler tonight. Tomorrow fair.

The warm wave in the upper lake region has been broken, and there has been also a noticeable lowering of temperature in the Ohio valley and the lower lake region, due largely to northerly winds induced by an area of high pressure that yesterday morning occupied the upper lake region.

Scattered thundershowers have occurred in the Ohio valley and New England.

The weather tonight and Wednesday will be generally fair and somewhat cooler in New England and the middle Atlantic states. Moderate temperatures will continue for several days in these districts, also in the lower lake region.

Thundershowers are probable in southern Virginia and in Appalachian districts of the south. Elsewhere fair weather will continue.

The winds along the New England coast will be moderate north to northeast; on the middle Atlantic coast, moderate northeast; on the south Atlantic coast, light and variable, becoming northeast tomorrow; on the east gulf coast, light and variable.

Steamers departing today for European ports will have moderate north to northeast winds and fair weather to the Grand Banks.

### Tide Tables.

Today—Low tide, 3:43 a.m. and 4:07 p.m.; high tide, 9:23 a.m. and 9:50 p.m.  
Tomorrow—Low tide, 4:23 a.m. and 4:41 p.m.; high tide, 10:01 a.m. and 10:27 p.m.

### The Sun and Moon.

Today—Sun rose 5:06 a.m., sun sets 7:20 p.m.  
Tomorrow—Sun rises 5:07 a.m., sun sets 7:19 p.m.  
Moon rises 7:32 a.m., sets 8:27 p.m.  
Automobile lamps to be lighted one-half hour after sunset.

### Records for Twenty-Four Hours.

The following were the readings of the thermometer and barometer at the weather bureau for the twenty-four hours beginning at 2 p.m. yesterday.

Thermometer—Yesterday, 4 p.m., 89; 8 p.m., 83; 12 midnight, 82; today, 4 a.m., 79; 8 a.m., 74; Maximum, 91, at 2:30 p.m. yesterday; minimum, 74, at 7 a.m. today.

Temperature same date last year—Maximum, 97; minimum, 74.

Barometer—Yesterday, 4 p.m., 29.90; 8 p.m., 29.83; 12 midnight, 29.82; today, 4 a.m., 29.88; 8 a.m., 29.80.

### Condition of the Water.

Temperature and condition of water at 8 a.m.: Great Falls—Temperature, 78; condition, 180; Dalecarlia reservoir—Temperature, 77; condition at north connection, 90; condition at south connection, 100; Georgetown distributing reservoir—Temperature, 77; condition at influent gatehouse, 100; condition at effluent gatehouse, 60.

### BARONS TO BE SOLD.

Stegmaier Brothers Ready to Purchase Club at Public Sale Today.

WILKESBARRE, Pa., August 1.—The decision of Judge Wilmer of the United States district court, at Scranton yesterday, in refusing to permit Manager Peter Noonan of the Wilkesbarre club to go into bankruptcy means that Sheriff George Bush will sell the club at a sheriff's sale today. Fred and Carl Stegmaier are ready to bid the club in, pay all debts and protect the minority stockholders.

Mike Donlin, formerly with the Glens, is here and it is expected that he will be manager of the team after tomorrow. Noonan tried to go into bankruptcy to prevent the sale and later sought to negotiate a compromise, but his demand for \$3,000 and the right to sell the club was refused.

Richard A. Shaw conveys same property to Sallie C. Over; \$10; stamp, \$1.

KENILWORTH—Eugene W. Weaver to Jennie R. Driggers, lot 32, square 5155; \$250.

## FILE FORMAL PROTEST AGAINST HIGHER FARES

Citizens Object to Increases on Blumont Branch of the W. and O. D.

Citing cases of increase in commutation and other rates, C. Elton James, Chester Wood and Arthur Robb have filed with the interstate commerce commission formal protest against the new passenger tariff proposed by the Washington and Old Dominion Railway Company for the Blumont branch of that road. The proposed tariff is to become effective August 9.

The protest, filed through the attorneys of the three complainants, E. Hilton Jackson and Robert H. Turner, points out that in the new tariff the transfer privilege heretofore accorded passengers on this branch, transferring them to the cars of the Capital Traction Company at 36th and M streets, has been abandoned and also that the fares, both commutation and otherwise, have been increased.

### Increases Are Cited.

The petition points out, by way of illustration, the effect upon other points on the road being the same, that the monthly increase from Pasonian Springs and Herndon is \$1.05, and that there is an increase of \$2.35 for the quarterly commutation tickets, with corresponding increases in fares from and to other points on the road, as indicated by the tariff against which the protest is made.

The petition requests that the tariff complained of be suspended and that the Washington and Old Dominion Railway Company and the Capital Traction Company be required to desist from making effective the proposed tariff, which it is charged, is in violation of section 1 of the act to regulate commerce.

## IRISH FIASCO RESULTS IN REVOLT IN COMMONS

Nationalists Feel Themselves Abandoned From Support of Coalition Government.

LONDON, August 1.—The debate in the house of commons yesterday on John Dillon's motion urging the government to disclose its plan for the government of Ireland during the war seems to have left the prospect of an amicable settlement of the Irish problem as distant as before.

Premier Asquith made a conciliatory speech, but he had little to announce tending to appease nationalist susceptibility, for, although he expressed the conviction that a permanent settlement would be reached sooner than many persons imagined, John Redmond, the nationalist leader, made it clear that his party was dissatisfied and would henceforth consider itself absolved from association with the coalition government and free to criticize and oppose it independently in all circumstances.

The main ground for his objections to the government's plan for an interim government was that it would be in the hands of the new secretary for Ireland, Henry Edward Duke, and the attorney general, Sir Frederick E. Smith, both unionists; that, in fact, it was a revival of castle government.

### Cycle Policemen Hold Conference.

For the purpose of getting a better understanding of the traffic laws and their enforcement, Maj. Pullman has arranged monthly meetings for the captains of the various police precincts and the bicycle corps. Such a meeting held yesterday afternoon at the District Police Station.

## VOLUME OF THE OUTPUT OF ELECTRIC PLANTS

Summary of Business in United States for Year 1914 Given in Census Bulletin.

That 1,121 establishments were engaged in the electrical machinery business in 1914 was brought out in a summary of the general results of the 1914 census of manufactures, with respect to that industry, issued today by Director Sam L. Rogers of the bureau of census, Department of Commerce. It shows that of these establishments seven are located in Maryland, four in West Virginia, two in the District of Columbia and one in Virginia. The leading state is New York, which has 234 plants.

### Quantities and Values.

The report consists of a statement of the quantities and values of the products manufactured, prepared under the direction of William M. Stewart, chief statistician for manufactures. The figures

are preliminary and are subject to such change and correction as may become necessary upon further examination of the original reports.

The statistics for 1914 cover a period of depression due to the outbreak of the European war, from which the industry has since fully recovered.

Reports were received from 1,121 establishments engaged in this industry in 1914, with products valued at \$359,424,474. Of these establishments the principal business of 1,039 was the manufacture of electrical machinery, apparatus and supplies, and ninety-one, which were engaged primarily in other lines of manufacture, produced electrical machinery and apparatus to the value of \$24,261,961.

### Figures for Year 1909.

At the census of 1909 there were reported 1,151 establishments, with products valued at \$240,037,479. Of these, 1,069 were engaged primarily in the manufacture of electrical machinery, apparatus and supplies, and 82 were engaged in other lines of manufacture. The total number of establishments reported in 1914 was smaller by thirty than the corresponding number in 1909, the number of establishments engaged primarily in this industry increased by twenty-one and the total value of products exceeded that in 1909 by \$119,375,197, or 49.7 per cent.

It is to be noted that these statistics do not cover porcelain electrical supplies, manufactured by the clay-working industries—valued at \$4,130,279 in 1914, as reported by the geological survey—nor globes and battery jars for electrical use, manufactured in glass works.

### \$1,814,753 FOR BUILDING.

Figures on Operations in District for July Are Announced.

Building operations in the District last month involved a total expenditure of \$1,814,753, of which \$1,665,862 represented new buildings and \$148,891 repairs. Improvements were distributed throughout the city as follows:

Buildings—Northeast, \$33,625; south, \$13,725; northwest, \$380,600; southwest, \$3,958; county, \$1,231,812. Total, \$1,665,862.

Repairs, etc.—Northeast, \$4,475; south, \$1,358; northwest, \$98,176; southwest, \$1,200; county, \$42,162. Total, \$148,891.

### To Install Another Fire Horn.

The District Commissioners have ordered the installation of a signal horn at 7th street and Pennsylvania avenue northwest to give warning of the approach of fire apparatus. Similar horns are now in operation at 14th and G streets and at F and F streets northwest. There are other street crossings where the horns are considered needed, and it is probable that one will be installed in the near future at 9th street and New York avenue.
